

# BRITISH ACADEMY OF MANAGEMENT

## Becoming an Education-Focussed Professor Programme (EFP) 2025

MARCH | MAY | OCTOBER | DECEMBER

Facilitated by the BAM Management  
Knowledge and Education  
Sub-Committee

Our Becoming an Education-Focussed Professor' programme is a unique development programme designed specifically to support Business and Management academics on a teaching and scholarship track (T&S) at all levels to develop their own scholarship profile and career.

### Programme goals include:

- Promoting the centrality of the scholarship of teaching and learning in business schools
- Exploring and establishing the relevance of other forms of scholarship for T&S academics.
- Providing a programme of development for BAM members who wish to understand the nature and modalities of scholarship and develop their own scholarship profile.

The programme is focused upon capacity building to define education-focussed scholarship in a way that becomes useable, accessible, and open to assessment.
